

FALL ASPHALT PAVEMENT CONFERENCE

Wednesday & Thursday, Oct. 24 & 25, 2018
 Doubletree Hotel, 2001 Point West Way, Sacramento, CA

DAY 2 AGENDA

DAY 2 SESSIONS – THURSDAY, OCTOBER 25

7:00 a.m. Registration Desk Opens / Networking / Trade Show Floor Open
 Full Breakfast.

8:00 a.m. **Featured Speaker: State of the construction industry in California**
Mark Breslin, CEO, United Contractors
 A dynamic speaker and author, Mark Breslin will discuss disruption in the construction industry and other trends that will impact future growth and success for industry and agency personnel alike.

Conference Pricing Information

\$199 – CalAPA Member/Public Agency (\$239 after Oct. 8)
 Conference & AP101 or QP class

\$299 – CalAPA Member/Public Agency (\$339 after Oct. 8)
 Conference, AP101 & QP class

\$339 – CalAPA Member/Public Agency (\$439 after Oct. 8)
 Non members please reference website.

Training Only Pricing Information

\$139 – CalAPA Member/Public Agency One class (\$179 after Oct. 8)

\$239 – CalAPA Member/Public Agency Two classes (\$279 after Oct. 8)
 Non members please reference website.

CONCURRENT SESSIONS

	MATERIALS TRACK	RECYCLING TRACK	CONSTRUCTION TRACK
9:00 a.m.	<p><i>Topic M1</i> Additives for improved pavement performance Contractors are utilizing various additives in their asphalt mixes to achieve various performance and construction characteristics. Hear from the additive experts on the various types of additives and how they are used. <i>Topic Lead: TBD, Road Science</i></p>	<p><i>Topic S1</i> CIR use in urban areas Learn how CIR is utilized in an urban city's pavement management program. <i>Topic Lead: Frank Farshidi, Ph.D, Project Manager, City of San Jose Department of Transportation</i></p>	<p><i>Topic C1</i> Best practices for the use of Tack Coats Learn about the different materials used for tack coats. Also gain insight into the techniques to employ for pavement performance success. <i>Topic Lead: Tom Hicks, Ergon Asphalt & Emulsions</i></p>

9:45 a.m. **BREAK** – Refreshments included.
 Trade Show booths open.

10:15 a.m.	<p><i>Topic M2</i> Designing mixes with high RAP content Learn the techniques a mix designer considers when incorporating high recycled materials content (RAP and/or RAS) in asphalt mixes. <i>Topic Lead: Pascal Mascarenhas, Manager, Technical Services, Vulcan Materials</i></p>	<p><i>Topic S2</i> Construction BMPS for CIR success What makes a good specification? What should engineers that develop specification limits consider? Variability? Risk? <i>Topic Lead: Dennis McElroy, CIR Operations Manager, Graniterock Company</i></p>	<p><i>Topic C2</i> Best practices for Longitudinal Joint construction Proper longitudinal joint construction is critical to the overall performance of a pavement. Learn the best practices for constructing a quality longitudinal joint. <i>Topic Lead: Bob Humer, P.E., Regional Field Engineer, Asphalt Institute</i></p>
-------------------	---	---	---

11:15 a.m. **Technical Panel: Caltrans pavement smoothness specification revisions – a collaborative effort**
Tom Pyle, P.E., Chief, Office of Asphalt Pavement, Caltrans and Don Matthews, P.E., Manager, Pavement Recycling Systems
 Learn the latest on the implementation of the revised Caltrans Smoothness Specification. Hear from two of the leaders that developed the specification on the key concepts incorporated in the specification and the significant considerations for successful implementation.

Noon **ADJOURN**

1:00 p.m. **OPTIONAL Technical Training Class (separate registration required) “ Quality Asphalt Paving”**
 A four-hour class covering the proper asphalt pavement placement and compaction. Your instructor Skip Brown a noted expert in the asphalt pavement industry. He has personally supervised the placement of more than 4 million tons of asphalt on a variety of public and private projects in California.
